

# HELP WANTED

## A&P Licensed Mechanic

Scanlon Aviation seeks a full time A&P Licensed Mechanic to join our team located at Gness Field in Novato, CA. Qualifications include the following:

- Proven skills in a wide range of complex aircraft systems troubleshooting
- Dedication to performing high quality work and delivering a high level of customer satisfaction
- Factory and advanced technical training desirable
- Ability to deliver completed operations in a productive manner
- Willingness to participate in a non-competitive, supportive workplace for the betterment of the overall organization
- Ability in all disciplines of the Airframe and Powerplant certificate in a general aviation maintenance setting

### Job Requirements

- Possess A&P License
- Tools required
- Strong technical background (mechanical, electrical)
- Relevant experience with single and twin engine aircraft, including Cirrus, Cessna, Beechcraft, and other aircraft
- Knowledge of Part 135 operations preferred
- 5 years of general aviation experience preferred
- Must possess valid CA drivers license

Scanlon Aviation is a smoke-free and drug-free workplace. Compensation is commensurate with experience.
